ECOPOS

— POINT OF SALE —

Description

EP-200-i5 is a stylish modern point of sale machine. The whole machine is made of good quality aluminium alloy which is not easy to scratch. At the back, there is a hidden cable design. The whole machine is neat, no redundant cables. It adopts 15" or 15.6" Capacitive Touch Screen capacitive touch screen, which is sensitive to touch and gives users a good experience. Fully compatible with Windows, Android or ARM Linux systems to meet your business needs.

Features

- Classic and Stylish Design
- All cables are hidden inside, no extra cables on the Exterior
- Supports both Android and Windows motherboards
- Flexibly match the peripherals you like such as printers, barcode scanners, scales, etc.
